

Innovation Lab Network

http://www.ccsso.org/Resources/Programs/Innovation_Lab_Network.html

The Innovation Lab Network engages schools, districts, and state education agencies working to identify new designs for public education that empower each individual student to thrive as a productive learner, worker, and citizen. CCSSO facilitates this network of states, which includes Kentucky, Maine, New Hampshire, New York, Ohio, West Virginia, and Wisconsin.

Kentucky – P20 Innovation Lab

<http://p20.education.uky.edu/>

The Kentucky P20 Innovation Lab at the University of Kentucky is led by the Kentucky Department of Education to develop, implement, test, and scale the future of learning in Kentucky. It is a state-wide, collaborative space to bring researchers, state personnel, school district leaders, teachers, parents, business leaders, nonprofit organizations and other community members to collectively propel new innovations.

Maine

<http://www.msad15.org/index.html>

Maine's work with the Innovation Lab Network is concentrated in the Maine School Administrative District 15. They are moving forward with transitioning to proficiency-based pathways under the RISC standards-based model.

New Hampshire

<http://www.education.nh.gov/innovations/nxgl/>

New Hampshire has engaged the National Commission on Teaching and America's Future (NCTAF) to create a Learning Studios network here. Learning Studios enable Learning Teams of educators, tech-savvy youth, and skill-based volunteers to develop innovative approaches to complex learning challenges.

New York – iZone

<http://schools.nyc.gov/community/innovation/izone/default.htm>

The Innovation Zone (iZone) is a community of innovative New York City schools committed to personalizing learning.

Technology and Innovation in Education (TIE)

<http://www.tie.net/default.aspx>

Based out of South Dakota, TIE offers professional development to assist and empower educational communities to respond productively in a networked global society. They are associated with Mass Customized Learning and the book, *Inevitable*.

Kunskapsskolan -- Sweden

<http://www.kunskapsskolan.se/foretaget/inenglish.4.1d32e45f86b8ae04c7fff213.html>

An independent school in Sweden focused on personalized learning for students while they work toward clear learning goals.

High Tech High – San Diego, CA

<http://www.hightechhigh.org/>

Has become an integrated network of schools that seek to prepare all learners develop the skills necessary for postsecondary success.
