Depreciation costs included in the disabled transportation category must be excluded in calculating the actual expenditure per pupil transported in the regular and excess transportation categories according to paragraph (a). For purposes of subitem (A), a school district may transport a child who does not have a school of origin to the same school attended by that child's sibling, if the siblings are homeless or in a shelter care facility.

Sec. 8. Minnesota Statutes 2016, section 126C.05, subdivision 8, is amended to read:

Subd. 8. **Average daily membership.** (a) Membership for pupils in grades kindergarten
through 12 and for prekindergarten pupils with disabilities shall mean the number of pupils
on the current roll of the school, counted from the date of entry until withdrawal. The date
of withdrawal shall mean the day the pupil permanently leaves the school or the date it is
officially known that the pupil has left or has been legally excused. However, a pupil,
regardless of age, who has been absent from school for 15 consecutive school days during
the regular school year or for five consecutive school days during summer school or
intersession classes of flexible school year programs without receiving instruction in the
home or hospital shall be dropped from the roll and classified as withdrawn. Nothing in this
section shall be construed as waiving the compulsory attendance provisions cited in section
120A.22. Average daily membership equals the sum for all pupils of the number of days
of the school year each pupil is enrolled in the district's schools divided by the number of
days the schools are in session or are providing e-learning days due to inclement weather.
Days of summer school or intersession classes of flexible school year programs are only
included in the computation of membership for pupils with a disability not appropriately
served primarily in the regular classroom. A student must not be counted as more than 1.2
pupils in average daily membership under this section and section 126C.10, subdivision 2a,
paragraph (b). When the initial total average daily membership exceeds 1.2 for a pupil
enrolled in more than one school district during the fiscal year, each district's average daily
membership must be reduced proportionately.

(b) A student must not be counted as more than one pupil in average daily membership
except for purposes of section 126C.10, subdivision 2a.

Sec. 9. Minnesota Statutes 2016, section 126C.10, subdivision 2, is amended to read:

Subd. 2. **Basic revenue.** The basic revenue for each district equals the formula allowance
times the adjusted pupil units for the school year. The formula allowance for fiscal year
2015 is $5,831. The formula allowance for fiscal year 2016 is $5,948. The formula allowance
for fiscal year 2017 and later is $6,067. The formula allowance for fiscal year 2018 is $6,158.
The formula allowance for fiscal year 2019 and later is $6,249.

**EFFECTIVE DATE.** This section is effective for revenue in fiscal year 2018 and later.
Sec. 10. Minnesota Statutes 2016, section 126C.10, subdivision 2a, is amended to read:

Subd. 2a. **Extended time revenue.** (a) A school district's extended time revenue is equal to the product of $5,117 and the sum of the adjusted pupil units of the district for each pupil in average daily membership in excess of 1.0 and less than 1.2 according to section 126C.05, subdivision 8.

(b) Extended time revenue for pupils placed in an on-site education program at the Prairie Lakes Education Center or the Lake Park School, located within the borders of Independent School District No. 347, Willmar, for instruction provided after the end of the preceding regular school year and before the beginning of the following regular school year equals membership hours divided by the minimum annual instructional hours in section 126C.05, subdivision 15, not to exceed 0.20, times the pupil unit weighting in section 126C.05, subdivision 1, times $5,117. A school district's extended time revenue may be used for extended day programs, extended week programs, summer school, vacation break academies such as spring break academies and summer term academies, and other programming authorized under the learning year program.

**EFFECTIVE DATE.** This section is effective for revenue for fiscal year 2018 and later.

Sec. 11. Minnesota Statutes 2016, section 126C.10, subdivision 3, is amended to read:

Subd. 3. **Compensatory education revenue.** (a) For fiscal year 2014, the compensatory education revenue for each building in the district equals the formula allowance minus $415 times the compensation revenue pupil units computed according to section 126C.05, subdivision 3. For fiscal year 2015 and later, the compensatory education revenue for each building in the district equals the formula allowance minus $839 times the compensation revenue pupil units computed according to section 126C.05, subdivision 3. A district's compensatory revenue equals the sum of its compensatory revenue for each building in the district and the amounts designated under Laws 2015, First Special Session chapter 3, article 2, section 70, subdivision 8, for fiscal year 2017. Revenue shall be paid to the district and must be allocated according to section 126C.15, subdivision 2.

(b) When the district contracting with an alternative program under section 124D.69 changes prior to the start of a school year, the compensatory revenue generated by pupils attending the program shall be paid to the district contracting with the alternative program for the current school year, and shall not be paid to the district contracting with the alternative program for the prior school year.
(c) When the fiscal agent district for an area learning center changes prior to the start of a school year, the compensatory revenue shall be paid to the fiscal agent district for the current school year, and shall not be paid to the fiscal agent district for the prior school year.

(d) Of the amount of revenue under this subdivision, 1.7 percent for fiscal year 2018, 3.5 percent for fiscal year 2019, and for fiscal year 2020 and later, 3.5 percent plus the percentage change in the formula allowance from the previous year, must be used for extended time activities under section 126C.10, subdivision 2a, paragraph (c).

**EFFECTIVE DATE.** This section is effective for revenue for fiscal year 2018 and later.

Sec. 12. Minnesota Statutes 2016, section 126C.10, subdivision 13a, is amended to read:

Subd. 13a. Operating capital levy. To obtain operating capital revenue, a district may levy an amount not more than the product of its operating capital revenue for the fiscal year times the lesser of one or the ratio of its adjusted net tax capacity per adjusted pupil unit to the operating capital equalizing factor. The operating capital equalizing factor equals $15,740 for fiscal year 2017, $19,245 for fiscal year 2018, and $22,185 for fiscal year 2019 and later.

Sec. 13. Minnesota Statutes 2016, section 126C.17, subdivision 9, is amended to read:

Subd. 9. Referendum revenue. (a) The revenue authorized by section 126C.10, subdivision 1, may be increased in the amount approved by the voters of the district at a referendum called for the purpose. The referendum may be called by the board. The referendum must be conducted one or two calendar years before the increased levy authority, if approved, first becomes payable. Only one election to approve an increase may be held in a calendar year. Unless the referendum is conducted by mail under subdivision 11, paragraph (a), the referendum must be held on the first Tuesday after the first Monday in November. The ballot must state the maximum amount of the increased revenue per adjusted pupil unit. The ballot may state a schedule, determined by the board, of increased revenue per adjusted pupil unit that differs from year to year over the number of years for which the increased revenue is authorized or may state that the amount shall increase annually by the rate of inflation. For this purpose, the rate of inflation shall be the annual inflationary increase calculated under subdivision 2, paragraph (b). The ballot may state that existing referendum levy authority is expiring. In this case, the ballot may also compare the proposed levy authority to the existing expiring levy authority, and express the proposed increase as the amount, if any, over the expiring referendum levy authority. The ballot must designate the specific number of years, not to exceed ten, for which the referendum authorization applies.
The ballot, including a ballot on the question to revoke or reduce the increased revenue amount under paragraph (c), must abbreviate the term "per adjusted pupil unit" as "per pupil." The notice required under section 275.60 may be modified to read, in cases of renewing existing levies at the same amount per pupil as in the previous year:

"BY VOTING "YES" ON THIS BALLOT QUESTION, YOU ARE VOTING TO EXTEND AN EXISTING PROPERTY TAX REFERENDUM THAT IS SCHEDULED TO EXPIRE."

The ballot may contain a textual portion with the information required in this subdivision and a question stating substantially the following:

"Shall the increase in the revenue proposed by (petition to) the board of ......., School District No. ..., be approved?"

If approved, an amount equal to the approved revenue per adjusted pupil unit times the adjusted pupil units for the school year beginning in the year after the levy is certified shall be authorized for certification for the number of years approved, if applicable, or until revoked or reduced by the voters of the district at a subsequent referendum.

(b) The board must prepare and deliver by first class mail at least 15 days but no more than 30 days before the day of the referendum to each taxpayer a notice of the referendum and the proposed revenue increase. The board need not mail more than one notice to any taxpayer. For the purpose of giving mailed notice under this subdivision, owners must be those shown to be owners on the records of the county auditor or, in any county where tax statements are mailed by the county treasurer, on the records of the county treasurer. Every property owner whose name does not appear on the records of the county auditor or the county treasurer is deemed to have waived this mailed notice unless the owner has requested in writing that the county auditor or county treasurer, as the case may be, include the name on the records for this purpose. The notice must project the anticipated amount of tax increase in annual dollars for typical residential homesteads, agricultural homesteads, apartments, and commercial-industrial property within the school district.

The notice for a referendum may state that an existing referendum levy is expiring and project the anticipated amount of increase over the existing referendum levy in the first year, if any, in annual dollars for typical residential homesteads, agricultural homesteads, apartments, and commercial-industrial property within the district.

The notice must include the following statement: "Passage of this referendum will result in an increase in your property taxes." However, in cases of renewing existing levies, the
notice may include the following statement: "Passage of this referendum extends an existing operating referendum at the same amount per pupil as in the previous year."

(c) A referendum on the question of revoking or reducing the increased revenue amount authorized pursuant to paragraph (a) may be called by the board. A referendum to revoke or reduce the revenue amount must state the amount per adjusted pupil unit by which the authority is to be reduced. Revenue authority approved by the voters of the district pursuant to paragraph (a) must be available to the school district at least once before it is subject to a referendum on its revocation or reduction for subsequent years. Only one revocation or reduction referendum may be held to revoke or reduce referendum revenue for any specific year and for years thereafter.

(d) The approval of 50 percent plus one of those voting on the question is required to pass a referendum authorized by this subdivision.

(e) At least 15 days before the day of the referendum, the district must submit a copy of the notice required under paragraph (b) to the commissioner and to the county auditor of each county in which the district is located. Within 15 days after the results of the referendum have been certified by the board, or in the case of a recount, the certification of the results of the recount by the canvassing board, the district must notify the commissioner of the results of the referendum.

**EFFECTIVE DATE.** This section is effective August 1, 2017.

Sec. 14. Minnesota Statutes 2016, section 127A.45, subdivision 10, is amended to read:

Subd. 10. **Payments to school nonoperating funds.** Each fiscal year state general fund payments for a district nonoperating fund must be made at the current year aid payment percentage of the estimated entitlement during the fiscal year of the entitlement. This amount shall be paid in six equal monthly installments from July through December. The amount of the actual entitlement, after adjustment for actual data, minus the payments made during the fiscal year of the entitlement must be paid prior to October 31 of the following school year. The commissioner may make advance payments of debt service equalization aid and state-paid tax credits for a district's debt service fund earlier than would occur under the preceding schedule if the district submits evidence showing a serious cash flow problem in the fund. The commissioner may make earlier payments during the year and, if necessary, increase the percent of the entitlement paid to reduce the cash flow problem.
Sec. 15. NEVIS SCHOOL DISTRICT; LEVY ADJUSTMENT.

Notwithstanding Minnesota Statutes, section 126C.48, Independent School District No. 308, Nevis, at the discretion of its school board, may spread any levy adjustment remaining from the conversion of its operating referendum revenue over three or fewer years beginning with school property taxes for taxes payable in 2018.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 16. PUPIL TRANSPORTATION ADJUSTMENT.

(a) An independent, common, or special school district's transportation sparsity revenue under Minnesota Statutes, section 126C.10, subdivision 18, is increased by the greater of zero or 18.2 percent of the difference between:

(1) the lesser of the district's total cost for regular and excess pupil transportation under section 123B.92, subdivision 1, paragraph (b), including depreciation, for the previous fiscal year or 105 percent of the district's total cost for the second previous fiscal year; and

(2) the sum of:

(i) 4.66 percent of the district's basic revenue for the previous fiscal year;

(ii) transportation sparsity revenue under Minnesota Statutes, section 126C.10, subdivision 18, for the previous fiscal year; and

(iii) the district's charter school transportation adjustment for the previous fiscal year.

(b) A charter school's pupil transportation adjustment equals the school district per pupil adjustment under paragraph (a).

Section 1. Minnesota Statutes 2016, section 120A.22, subdivision 9, is amended to read:

Subd. 9. **Curriculum Knowledge and skills.** Instruction must be provided in at least the following subject areas:

(1) basic communication skills including reading and writing, literature, and fine arts;
(2) mathematics and science;
(3) social studies including history, geography, economics, government, and citizenship; and
(4) health and physical education.

Instruction, textbooks, and materials must be in the English language. Another language may be used pursuant to sections 124D.59 to 124D.61.

Sec. 2. Minnesota Statutes 2016, section 120B.021, subdivision 1, is amended to read:

Subdivision 1. **Required academic standards.** (a) The following subject areas are required for statewide accountability:

(1) language arts;
(2) mathematics;
(3) science;
(4) social studies, including history, geography, economics, and government and
citizenship that includes civics consistent with section 120B.02, subdivision 3;

(5) physical education;

(6) health, for which locally developed academic standards apply; and

(7) the arts, for which statewide or locally developed academic standards apply, as
determined by the school district. Public elementary and middle schools must offer at least
three and require at least two of the following four arts areas: dance; music; theater; and
visual arts. Public high schools must offer at least three and require at least one of the
following five arts areas: media arts; dance; music; theater; and visual arts.

(b) For purposes of applicable federal law, the academic standards for language arts,
mathematics, and science apply to all public school students, except the very few students
with extreme cognitive or physical impairments for whom an individualized education
program team has determined that the required academic standards are inappropriate. An
individualized education program team that makes this determination must establish
alternative standards.

(c) Beginning in the 2016-2017 school year, The department must adopt the most recent
National Association of Sport and Physical Education SHAPE America (Society of Health
and Physical Educators) kindergarten through grade 12 standards and benchmarks for
physical education as the required physical education academic standards. The department
may modify and adapt the national standards to accommodate state interest. The modification
and adaptations must maintain the purpose and integrity of the national standards. The
department must make available sample assessments, which school districts may use as an
alternative to local assessments, to assess students' mastery of the physical education
standards beginning in the 2018-2019 school year.

(d) A school district may include child sexual abuse prevention instruction in a health
curriculum, consistent with paragraph (a), clause (6). Child sexual abuse prevention
instruction may include age-appropriate instruction on recognizing sexual abuse and assault,
boundary violations, and ways offenders groom or desensitize victims, as well as strategies
to promote disclosure, reduce self-blame, and mobilize bystanders. A school district may
provide instruction under this paragraph in a variety of ways, including at an annual assembly
or classroom presentation. A school district may also provide parents information on the
warning signs of child sexual abuse and available resources.
(4) (e) District efforts to develop, implement, or improve instruction or curriculum as a result of the provisions of this section must be consistent with sections 120B.10, 120B.11, and 120B.20.

Sec. 3. Minnesota Statutes 2016, section 120B.021, subdivision 3, is amended to read:

Subd. 3. Rulemaking. The commissioner, consistent with the requirements of this section and section 120B.022, must adopt statewide rules under section 14.389 for implementing statewide rigorous core academic standards in language arts, mathematics, science, social studies, physical education, and the arts. After the rules authorized under this subdivision are initially adopted, the commissioner may not amend or repeal these rules nor adopt new rules on the same topic without specific legislative authorization. The academic standards for language arts, mathematics, and the arts must be implemented for all students beginning in the 2003-2004 school year. The academic standards for science and social studies must be implemented for all students beginning in the 2005-2006 school year.

Sec. 4. Minnesota Statutes 2016, section 120B.022, subdivision 1b, is amended to read:

Subd. 1b. State bilingual and multilingual seals. (a) Consistent with efforts to strive for the world's best workforce under sections 120B.11 and 124E.03, subdivision 2, paragraph (i), and close the academic achievement and opportunity gap under sections 124D.861 and 124D.862, voluntary state bilingual and multilingual seals are established to recognize high school students in any school district, charter school, or nonpublic school who demonstrate an advanced-low level or an intermediate high level of functional proficiency in listening, speaking, reading, and writing on either assessments aligned with American Council on the Teaching of Foreign Languages' (ACTFL) proficiency guidelines or on equivalent valid and reliable assessments in one or more languages in addition to English. American Sign Language is a language other than English for purposes of this subdivision and a world language for purposes of subdivision 1a.

(b) In addition to paragraph (a), to be eligible to receive a seal:

(1) students must satisfactorily complete all required English language arts credits; and

(2) students must demonstrate mastery of Minnesota's English language proficiency standards.

(c) Consistent with this subdivision, a high school student who demonstrates an intermediate high ACTFL level of functional proficiency in one language in addition to English is eligible to receive the state bilingual gold seal. A high school student who
demonstrates an intermediate high ACTFL level of functional native proficiency in more than one language in addition to English is eligible to receive the state multilingual gold seal. A high school student who demonstrates an advanced-low ACTFL level of functional proficiency in one language in addition to English is eligible to receive the state bilingual platinum seal. A high school student who demonstrates an advanced-low ACTFL level of functional proficiency in more than one language in addition to English is eligible to receive the state multilingual platinum seal.

(d) School districts and charter schools may give students periodic opportunities to demonstrate their level of proficiency in listening, speaking, reading, and writing in a language in addition to English. Where valid and reliable assessments are unavailable, a school district or charter school may rely on evaluators trained in assessing under ACTFL proficiency guidelines to assess a student's level of foreign, heritage, or indigenous language proficiency under this section. School districts and charter schools must maintain appropriate records to identify high school students eligible to receive the state bilingual or multilingual gold and platinum seals. The school district or charter school must affix the appropriate seal to the transcript of each high school student who meets the requirements of this subdivision and may affix the seal to the student's diploma. A school district or charter school must not charge the high school student a fee for this seal.

(e) A school district or charter school may award elective course credits in world languages to a student who demonstrates the requisite proficiency in a language other than English under this section.

(f) A school district or charter school may award community service credit to a student who demonstrates an intermediate high or advanced-low ACTFL level of functional proficiency in listening, speaking, reading, and writing in a language other than English and who participates in community service activities that are integrated into the curriculum, involve the participation of teachers, and support biliteracy in the school or local community.

(g) The commissioner must list on the Web page those assessments that are aligned to ACTFL proficiency guidelines.

(h) By August 1, 2015, the colleges and universities of the Minnesota State Colleges and Universities system must establish criteria to translate the seals into college credits based on the world language course equivalencies identified by the Minnesota State Colleges and Universities faculty and staff and, upon request from an enrolled student, the Minnesota State Colleges and Universities may award foreign language credits to a student who receives a Minnesota World Language Proficiency Certificate under subdivision 1a. A student who
demonstrated the requisite level of language proficiency in grade 10, 11, or 12 to receive a
seal or certificate and is enrolled in a Minnesota State Colleges and Universities institution
must request college credits for the student's seal or proficiency certificate within three
academic years after graduating from high school. The University of Minnesota is encouraged
to award students foreign language academic credits consistent with this paragraph.

Sec. 5. Minnesota Statutes 2016, section 120B.12, subdivision 2, is amended to read:

Subd. 2. Identification; report. (a) Each school district shall identify before the end of
kindergarten, grade 1, and grade 2 students who are not reading at grade level before the
end of the current school year and shall identify students in grade 3 or higher who
demonstrate a reading difficulty to a classroom teacher. Reading assessments in English,
and in the predominant languages of district students where practicable, must identify and
evaluate students' areas of academic need related to literacy. The district also must monitor
the progress and provide reading instruction appropriate to the specific needs of English
learners. The district must use a locally adopted, developmentally appropriate, and culturally
responsive assessment and annually report summary assessment results to the commissioner
by July 1. The district also must annually report to the commissioner by July 1 a summary
of the district's efforts to screen and identify students with:

(1) dyslexia, using screening tools such as those recommended by the department's
dyslexia and literacy specialist; or

(2) convergence insufficiency disorder to the commissioner by July 1.

(b) A student identified under this subdivision must be provided with alternate instruction
under section 125A.56, subdivision 1.

Sec. 6. Minnesota Statutes 2016, section 120B.12, subdivision 2a, is amended to read:

Subd. 2a. Parent notification and involvement. Schools, at least annually, must give
the parent of each student who is not reading at or above grade level timely information
about:

(1) the student's reading proficiency as measured by a locally adopted assessment;

(2) reading-related services currently being provided to the student and the student's
progress; and

(3) strategies for parents to use at home in helping their student succeed in becoming
grade-level proficient in reading in English and in their native language.
A district may not use this section to deny a student's right to a special education evaluation.

Sec. 7. Minnesota Statutes 2016, section 120B.12, subdivision 3, is amended to read:

Subd. 3. Intervention. (a) For each student identified under subdivision 2, the district shall provide reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year. If a student does not read at or above grade level by the end of grade 3, the district must continue to provide reading intervention until the student reads at grade level. District intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs. Intervention methods may include, but are not limited to, requiring attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.

(b) A school district or charter school is strongly encouraged to provide a personal learning plan for a student who is unable to demonstrate grade-level proficiency, as measured by the statewide reading assessment in grade 3. The district or charter school must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, periodic assessments, and reasonable timelines. The personal learning plan may include grade retention, if in the student's best interests. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

Sec. 8. [120B.122] DYSLEXIA SPECIALIST.

Subdivision 1. Purpose. The department must employ a dyslexia specialist to provide technical assistance for dyslexia and related disorders and to serve as the primary source of information and support for schools in addressing the needs of students with dyslexia and related disorders. The dyslexia specialist shall also act to increase professional awareness and instructional competencies to meet the educational needs of students with dyslexia or identified with risk characteristics associated with dyslexia and shall develop implementation guidance and make recommendations to the commissioner consistent with section 122A.06,
subdivision 4, to be used to assist general education teachers and special education teachers

to recognize educational needs and to improve literacy outcomes for students with dyslexia

or identified with risk characteristics associated with dyslexia, including recommendations

related to increasing the availability of online and asynchronous professional development

programs and materials.

**Subd. 2. Definition.** For purposes of this section, a "dyslexia specialist" means a dyslexia

therapist, licensed psychologist, licensed speech-language pathologist, or certified dyslexia

training specialist who has a minimum of three years of field experience in screening,

identifying, and treating dyslexia and related disorders.

**Subd. 3. Requirements.** A dyslexia specialist shall be highly trained in dyslexia and

related disorders and in using interventions and treatments that are evidence-based,

multisensory, direct, explicit, structured, and sequential in the areas of phonics, phonemic

awareness, vocabulary, fluency, and comprehension.

Sec. 9. Minnesota Statutes 2016, section 120B.125, is amended to read:

**120B.125 PLANNING FOR STUDENTS' SUCCESSFUL TRANSITION TO

POSTSECONDARY EDUCATION AND EMPLOYMENT; PERSONAL LEARNING

PLANS.**

(a) Consistent with sections 120B.13, 120B.131, 120B.132, 120B.14, 120B.15, 120B.30,

subdivision 1, paragraph (c), 125A.08, and other related sections, school districts, beginning

in the 2013-2014 school year, must assist all students by no later than grade 9 to explore

their educational, college, and career interests, aptitudes, and aspirations and develop a plan

for a smooth and successful transition to postsecondary education or employment. All

students' plans must:

(1) provide a comprehensive plan to prepare for and complete a career and college ready

curriculum by meeting state and local academic standards and developing career and

employment-related skills such as team work, collaboration, creativity, communication,

critical thinking, and good work habits;

(2) emphasize academic rigor and high expectations and inform the student and the

student's parent or guardian, if the student is a minor, of the student's achievement level

score on the Minnesota Comprehensive Assessments that are administered during high

school;
(3) help students identify interests, aptitudes, aspirations, and personal learning styles that may affect their career and college ready goals and postsecondary education and employment choices;

(4) set appropriate career and college ready goals with timelines that identify effective means for achieving those goals;

(5) help students access education and career options;

(6) integrate strong academic content into career-focused courses and applied and experiential learning opportunities and integrate relevant career-focused courses and applied and experiential learning opportunities into strong academic content;

(8) help identify collaborative partnerships among prekindergarten through grade 12 schools, postsecondary institutions, economic development agencies, and local and regional employers that support students’ transition to postsecondary education and employment and provide students with applied and experiential learning opportunities; and

(9) be reviewed and revised at least annually by the student, the student's parent or guardian, and the school or district to ensure that the student's course-taking schedule keeps the student making adequate progress to meet state and local academic standards and high school graduation requirements and with a reasonable chance to succeed with employment or postsecondary education without the need to first complete remedial course work.

(b) A school district may develop grade-level curricula or provide instruction that introduces students to various careers, but must not require any curriculum, instruction, or employment-related activity that obligates an elementary or secondary student to involuntarily select or pursue a career, career interest, employment goals, or related job training.

(c) Educators must possess the knowledge and skills to effectively teach all English learners in their classrooms. School districts must provide appropriate curriculum, targeted materials, professional development opportunities for educators, and sufficient resources to enable English learners to become career and college ready.

(d) When assisting students in developing a plan for a smooth and successful transition to postsecondary education and employment, districts must recognize the unique possibilities
of each student and ensure that the contents of each student's plan reflect the student's unique talents, skills, and abilities as the student grows, develops, and learns.

(e) If a student with a disability has an individualized education program (IEP) or standardized written plan that meets the plan components of this section, the IEP satisfies the requirement and no additional transition plan is needed.

(f) Students who do not meet or exceed Minnesota academic standards, as measured by the Minnesota Comprehensive Assessments that are administered during high school, shall be informed that admission to a public school is free and available to any resident under 21 years of age or who meets the requirements of section 120A.20, subdivision 1, paragraph (c). A student's plan under this section shall continue while the student is enrolled.

(3) language arts and reading; grades 3 through 8 and high school level beginning in the 2012-2013 school year.

(c) For students enrolled in grade 8 in the 2012-2013 school year and later, students' state graduation requirements, based on a longitudinal, systematic approach to student education and career planning, assessment, instructional support, and evaluation, include the following:
(1) an opportunity to participate on a nationally normed college entrance exam, in grade 11 or grade 12;

(2) achievement and career and college readiness in mathematics, reading, and writing, consistent with paragraph (k) and to the extent available, to monitor students' continuous development of and growth in requisite knowledge and skills; analyze students' progress and performance levels, identifying students' academic strengths and diagnosing areas where students require curriculum or instructional adjustments, targeted interventions, or remediation; and, based on analysis of students' progress and performance data, determine students' learning and instructional needs and the instructional tools and best practices that support academic rigor for the student; and

(3) consistent with this paragraph and section 120B.125, age-appropriate exploration and planning activities and career assessments to encourage students to identify personally relevant career interests and aptitudes and help students and their families develop a regularly reexamined transition plan for postsecondary education or employment without need for postsecondary remediation.

Based on appropriate state guidelines, students with an individualized education program may satisfy state graduation requirements by achieving an individual score on the state-identified alternative assessments.

(d) Expectations of schools, districts, and the state for career or college readiness under this subdivision must be comparable in rigor, clarity of purpose, and rates of student completion.

A student under paragraph (c), clause (2)(1), must receive targeted, relevant, academically rigorous, and resourced instruction, which may include a targeted instruction and intervention plan focused on improving the student's knowledge and skills in core subjects so that the student has a reasonable chance to succeed in a career or college without need for postsecondary remediation. Consistent with sections 120B.13, 124D.09, 124D.091, 124D.49, and related sections, an enrolling school or district must actively encourage a student in grade 11 or 12 who is identified as academically ready for a career or college to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.

(e) Though not a high school graduation requirement, students are encouraged to participate in a nationally recognized college entrance exam. To the extent state funding for college entrance exam fees is available, a district must pay the cost to reimburse a student.
in grade 11 or 12 who is eligible for a free or reduced-price meal, one time, for an interested student in grade 11 or 12 to take for the registration fees associated with a nationally recognized college entrance exam before graduating. A student must be able to take the exam under this paragraph at the student's high school during the school day and at any one of the multiple exam administrations available to students in the district. In order to comply with this subdivision, a district may administer the ACT or SAT or both the ACT and SAT to comply with this paragraph at the student's high school or arrange for the student to take the exam at another location. If the district administers only one of these two tests and a student opts not to take that test and chooses instead to take the other of the two tests, the A free or reduced-price meal eligible student may take the other test exam at a different time or location and remains eligible for the examination fee reimbursement.

(f) The commissioner and the chancellor of the Minnesota State Colleges and Universities must collaborate in aligning instruction and assessments for adult basic education students and English learners to provide the students with diagnostic information about any targeted interventions, accommodations, modifications, and supports they need so that assessments and other performance measures are accessible to them and they may seek postsecondary education or employment without need for postsecondary remediation. When administering formative or summative assessments used to measure the academic progress, including the oral academic development, of English learners and inform their instruction, schools must ensure that the assessments are accessible to the students and students have the modifications and supports they need to sufficiently understand the assessments.

(g) Districts and schools, on an annual basis, must use career exploration elements to help students, beginning no later than grade 9, and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. Districts and schools must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as a sequence of academic and career courses that lead to an industry-recognized credential, an associate's degree, or a bachelor's degree and are available to all students, whatever their interests and career goals.

(h) A student who demonstrates attainment of required state academic standards, which include career and college readiness benchmarks, on high school assessments under subdivision 1a is academically ready for a career or college and is encouraged to participate...
in courses awarding college credit to high school students. Such courses and programs may include sequential courses of study within broad career areas and technical skill assessments that extend beyond course grades.

(i) As appropriate, students through grade 12 must continue to participate in targeted instruction, intervention, or remediation and be encouraged to participate in courses awarding college credit to high school students.

(j) In developing, supporting, and improving students' academic readiness for a career or college, schools, districts, and the state must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation. The commissioner, in consultation with local school officials and educators, and Minnesota's public postsecondary institutions must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and an articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admissions requirements.

(k) For students in grade 8 in the 2012-2013 school year and later, a school, district, or charter school must record on the high school transcript a student's progress toward career and college readiness, and for other students as soon as practicable.

(l) The school board granting students their diplomas may formally decide to include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.

(m) The 3rd through 8th grade computer-adaptive assessment results and high school test results shall be available to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for establishing educational accountability. The commissioner must establish empirically derived benchmarks on adaptive assessments in grades 3 through 8. The commissioner, in consultation with the chancellor of the Minnesota State Colleges and Universities, must establish empirically derived benchmarks on the high school tests that reveal a trajectory toward career and college readiness consistent with section 136F.302, subdivision 1a. The commissioner must disseminate to the public the computer-adaptive assessments and high school test results upon receiving those results.

(n) The grades 3 through 8 computer-adaptive assessments and high school tests must be aligned with state academic standards. The commissioner shall determine the testing
process and the order of administration. The statewide results shall be aggregated at the site and district level, consistent with subdivision 1a.

(o) The commissioner shall include the following components in the statewide public reporting system:

(1) uniform statewide computer-adaptive assessments of all students in grades 3 through 8 and testing at the high school levels that provides appropriate, technically sound accommodations or alternate assessments;

(2) educational indicators that can be aggregated and compared across school districts and across time on a statewide basis, including average daily attendance, high school graduation rates, and high school drop-out rates by age and grade level;

(3) state results on the American College Test; and

(4) state results from participation in the National Assessment of Educational Progress so that the state can benchmark its performance against the nation and other states, and, where possible, against other countries, and contribute to the national effort to monitor achievement.

(p) For purposes of statewide accountability, "career and college ready" means a high school graduate has the knowledge, skills, and competencies to successfully pursue a career pathway, including postsecondary credit leading to a degree, diploma, certificate, or industry-recognized credential and employment. Students who are career and college ready are able to successfully complete credit-bearing coursework at a two- or four-year college or university or other credit-bearing postsecondary program without need for remediation.

(q) For purposes of statewide accountability, "cultural competence," "cultural competency," or "culturally competent" means the ability and will of families and educators to interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.

Sec. 16. Minnesota Statutes 2016, section 120B.31, is amended by adding a subdivision to read:

Subd. 3a. Rollout sites; report. The commissioner of education shall designate up to six school districts or charter schools as rollout sites.

(a) The rollout sites should represent urban school districts, suburban school districts, nonurban school districts, and charter schools. The commissioner shall designate rollout
sites and notify the schools by August 1, 2017, and the designated school districts or charter
schools shall have the right to opt-out or opt-in as rollout sites by September 1, 2017.

(b) The commissioner must consult stakeholders and review the American Community
Survey to develop recommendations for best practices for disaggregated data. Stakeholders
consulted under this paragraph include at least:

(1) the rollout sites;

(2) parent groups; and

(3) community representatives.

(c) The commissioner shall report to the legislative committees having jurisdiction over
kindergarten through grade 12 education policy and finance by February 1, 2018. The
commissioner may research best practices from other states that have disaggregated data
beyond the requirements of the most recent reauthorization of the Elementary and Secondary
Education Act. The commissioner must consult with the stakeholders on how to measure
a student's background as an immigrant or a refugee and provide a recommendation in the
report on how to include the data in the statewide rollout. The recommendations may address:

(1) the most meaningful use of disaggregated data, including but not limited to which
reports should include further disaggregated data;

(2) collection of additional student characteristics, including but not limited to ensuring
enhanced enrollment forms:

(i) provide context and the objective of additional data;

(ii) are designed to convey respect and acknowledgment of the sensitive nature of the
additional data; and

(iii) are designed to collect data consistent with user feedback;

(3) efficient data-reporting approaches when reporting additional information to the
department;

(4) the frequency by which districts and schools must update enrollment forms to meet
the needs of the state's changing racial and ethnic demographics; and

(5) the criteria for determining additional data. This recommendation should include a
recommendation for frequency of reviews and updates of the additional data and should
also identify the approach of updating any additional census data and data on new enrollees.

This recommendation must consider additional student groups that may face education
disparities and must take into account maintaining student privacy and providing nonidentifiable student level data.

**EFFECTIVE DATE.** This section is effective for the 2018-2019 school year and later.

Sec. 17. Minnesota Statutes 2016, section 120B.31, subdivision 4, is amended to read:

Subd. 4. **Student performance data.** In developing policies and assessment processes to hold schools and districts accountable for high levels of academic standards under section 120B.021, the commissioner shall aggregate and disaggregate student data over time to report summary student performance and growth levels and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data measured at the school, school district, and statewide level. The commissioner shall use the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and student categories of:

1. (1) homelessness;
2. (2) ethnicity, under section 120B.35, subdivision 3, paragraph (a), clause (2);
3. (3) race, under section 120B.35, subdivision 3, paragraph (a), clause (2);
4. (4) home language, immigrant, refugee status;
5. (5) English learners under section 124D.59;
6. (6) free or reduced-price lunch; and
7. (7) other categories designated by federal law to organize and report the data so that state and local policy makers can understand the educational implications of changes in districts' demographic profiles over time as data are available.

Any report the commissioner disseminates containing summary data on student performance must integrate student performance and the demographic factors that strongly correlate with that performance.

**EFFECTIVE DATE.** This section is effective for the 2019-2020 school year and later.

Sec. 18. Minnesota Statutes 2016, section 120B.35, subdivision 3, is amended to read:

Subd. 3. **State growth target; other state measures.** (a)(1) The state's educational assessment system measuring individual students' educational growth is based on indicators of achievement growth that show an individual student's prior achievement. Indicators of
achievement and prior achievement must be based on highly reliable statewide or districtwide
assessments.

(2) For purposes of paragraphs (b), (c), and (d), the commissioner must analyze and
report separate categories of information using the student categories identified under the
federal Elementary and Secondary Education Act, as most recently reauthorized, and, in
addition to "other" for each race and ethnicity, and the Karen community, other student
categories as determined by the total Minnesota population at or above the 1,000-person
threshold based on the most recent decennial census, including ethnicity, race, refugee status
seven of the most populous Asian and Pacific Islander groups, three of the most populous
Native groups, seven of the most populous Hispanic/Latino groups, and five of the most
populous Black and African Heritage groups as determined by the total Minnesota population
based on the most recent American Community Survey; English learners under section
124D.59; home language; free or reduced-price lunch; immigrant; and all students enrolled
in a Minnesota public school who are currently or were previously in foster care, except
that such disaggregation and cross tabulation is not required if the number of students in a
category is insufficient to yield statistically reliable information or the results would reveal
personally identifiable information about an individual student.

(b) The commissioner, in consultation with a stakeholder group that includes assessment
and evaluation directors, district staff, experts in culturally responsive teaching, and
researchers, must implement a model that uses a value-added growth indicator and includes
criteria for identifying schools and school districts that demonstrate medium and high growth
under section 120B.299, subdivisions 8 and 9, and may recommend other value-added
measures under section 120B.299, subdivision 3. The model may be used to advance
educators' professional development and replicate programs that succeed in meeting students'
diverse learning needs. Data on individual teachers generated under the model are personnel
data under section 13.43. The model must allow users to:

(1) report student growth consistent with this paragraph; and

(2) for all student categories, report and compare aggregated and disaggregated state
student growth and, under section 120B.11, subdivision 2, clause (2), student learning and
outcome data using the student categories identified under the federal Elementary and
Secondary Education Act, as most recently reauthorized, and other student categories under
paragraph (a), clause (2).

The commissioner must report measures of student growth and, under section 120B.11,
subdivision 2, clause (2), student learning and outcome data, consistent with this paragraph,
including the English language development, academic progress, and oral academic
development of English learners and their native language development if the native language
is used as a language of instruction, and include data on all pupils enrolled in a Minnesota
public school course or program who are currently or were previously counted as an English
learner under section 124D.59.

c) When reporting student performance under section 120B.36, subdivision 1, the
commissioner annually, beginning July 1, 2011, must report two core measures indicating
the extent to which current high school graduates are being prepared for postsecondary
academic and career opportunities:

1) a preparation measure indicating the number and percentage of high school graduates
in the most recent school year who completed course work important to preparing them for
postsecondary academic and career opportunities, consistent with the core academic subjects
required for admission to Minnesota's public colleges and universities as determined by the
Office of Higher Education under chapter 136A; and

2) a rigorous coursework measure indicating the number and percentage of high school
graduates in the most recent school year who successfully completed one or more
college-level advanced placement, international baccalaureate, postsecondary enrollment
options including concurrent enrollment, other rigorous courses of study under section
120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also
analyze and report separate categories of information using the student categories identified
under the federal Elementary and Secondary Education Act, as most recently reauthorized,
and other student categories under paragraph (a), clause (2).

d) When reporting student performance under section 120B.36, subdivision 1, the
commissioner annually, beginning July 1, 2014, must report summary data on school safety
and students' engagement and connection at school, consistent with the student categories
identified under paragraph (a), clause (2). The summary data under this paragraph are
separate from and must not be used for any purpose related to measuring or evaluating the
performance of classroom teachers. The commissioner, in consultation with qualified experts
on student engagement and connection and classroom teachers, must identify highly reliable
variables that generate summary data under this paragraph. The summary data may be used
at school, district, and state levels only. Any data on individuals received, collected, or
created that are used to generate the summary data under this paragraph are nonpublic data
under section 13.02, subdivision 9.
(e) For purposes of statewide educational accountability, the commissioner must identify and report measures that demonstrate the success of learning year program providers under sections 123A.05 and 124D.68, among other such providers, in improving students' graduation outcomes. The commissioner, beginning July 1, 2015, must annually report summary data on:

(1) the four- and six-year graduation rates of students under this paragraph;

(2) the percent of students under this paragraph whose progress and performance levels are meeting career and college readiness benchmarks under section 120B.30, subdivision 1; and

(3) the success that learning year program providers experience in:

(i) identifying at-risk and off-track student populations by grade;

(ii) providing successful prevention and intervention strategies for at-risk students;

(iii) providing successful recuperative and recovery or reenrollment strategies for off-track students; and

(iv) improving the graduation outcomes of at-risk and off-track students.

The commissioner may include in the annual report summary data on other education providers serving a majority of students eligible to participate in a learning year program.

(f) The commissioner, in consultation with recognized experts with knowledge and experience in assessing the language proficiency and academic performance of all English learners enrolled in a Minnesota public school course or program who are currently or were previously counted as an English learner under section 124D.59, must identify and report appropriate and effective measures to improve current categories of language difficulty and assessments, and monitor and report data on students' English proficiency levels, program placement, and academic language development, including oral academic language.

(g) When reporting four- and six-year graduation rates, the commissioner or school district must disaggregate the data by student categories according to paragraph (a), clause (2).

(h) A school district must inform parents and guardians that volunteering information on student categories not required by the most recent reauthorization of the Elementary and Secondary Education Act is optional and will not violate the privacy of students or their families, parents, or guardians. The notice must state the purpose for collecting the student data.
EFFECTIVE DATE. This section is effective for the 2018-2019 school year and later for rollout sites under Minnesota Statutes, section 120B.31, subdivision 3a. This section is effective for the 2019-2020 school year and later for all other schools.

Sec. 19. Minnesota Statutes 2016, section 120B.36, subdivision 1, is amended to read:

Subdivision 1. **School performance reports and public reporting.** (a) The commissioner shall report student academic performance data under section 120B.35, subdivisions 2 and 3; the percentages of students showing low, medium, and high growth under section 120B.35, subdivision 3, paragraph (b); school safety and student engagement and connection under section 120B.35, subdivision 3, paragraph (d); rigorous coursework under section 120B.35, subdivision 3, paragraph (c); the percentage of students under section 120B.35, subdivision 3, paragraph (b), clause (2), whose progress and performance levels are meeting career and college readiness benchmarks under sections 120B.30, subdivision 1, and 120B.35, subdivision 3, paragraph (e); longitudinal data on the progress of eligible districts in reducing disparities in students' academic achievement and realizing racial and economic integration under section 124D.861; the acquisition of English, and where practicable, native language academic literacy, including oral academic language, and the academic progress of all English learners enrolled in a Minnesota public school course or program who are currently or were previously counted as English learners under section 124D.59; two separate student-to-teacher ratios that clearly indicate the definition of teacher consistent with sections 122A.06 and 122A.15 for purposes of determining these ratios; staff characteristics excluding salaries; student enrollment demographics; foster care status, including all students enrolled in a Minnesota public school course or program who are currently or were previously in foster care, student homelessness, and district mobility; and extracurricular activities. The report also must indicate a school's status under applicable federal law.

(b) The school performance report for a school site and a school district must include school performance reporting information and calculate proficiency rates as required by the most recently reauthorized Elementary and Secondary Education Act.

(c) The commissioner shall develop, annually update, and post on the department Web site school performance reports consistent with paragraph (a) and section 120B.11.

(d) The commissioner must make available performance reports by the beginning of each school year.

(e) A school or district may appeal its results in a form and manner determined by the commissioner and consistent with federal law. The commissioner's decision to uphold or deny an appeal is final.
School performance data are nonpublic data under section 13.02, subdivision 9, until the commissioner publicly releases the data. The commissioner shall annually post school performance reports to the department's public Web site no later than September 1, except that in years when the reports reflect new performance standards, the commissioner shall post the school performance reports no later than October 1.

**EFFECTIVE DATE.** This section is effective for the 2017-2018 school year and later.

Sec. 20. Minnesota Statutes 2016, section 122A.40, subdivision 10, is amended to read:

Subd. 10. **Negotiated unrequested leave of absence.** The school board and the exclusive bargaining representative of the teachers may negotiate a plan providing for unrequested leave of absence without pay or fringe benefits for as many teachers as may be necessary because of discontinuance of position, lack of pupils, financial limitations, or merger of classes caused by consolidation of districts. Failing to successfully negotiate such a plan, the provisions of subdivision 11 shall apply. The negotiated plan must not include provisions which would result in the exercise of seniority by a teacher holding a provisional license, other than a vocational education license, contrary to the provisions of subdivision 11, paragraph (c), or the reinstatement of a teacher holding a provisional license, other than a vocational education license, contrary to the provisions of subdivision 11, paragraph (e). The provisions of section 179A.16 do not apply for the purposes of this subdivision.

**EFFECTIVE DATE.** This section is effective July 1, 2018.

Sec. 21. Minnesota Statutes 2016, section 122A.41, is amended by adding a subdivision to read:

Subd. 14a. **Negotiated unrequested leave of absence.** The school board and the exclusive bargaining representative of the teachers must negotiate a plan providing for unrequested leave of absence without pay or fringe benefits for as many teachers as may be necessary because of discontinuance of position, lack of pupils, financial limitations, or merger of classes caused by consolidation of districts.

**EFFECTIVE DATE.** This section is effective July 1, 2018.

Sec. 22. Minnesota Statutes 2016, section 122A.414, subdivision 2, is amended to read:

Subd. 2. **Alternative teacher professional pay system.** (a) To participate in this program, a school district, an intermediate school district consistent with paragraph (d), a school site, or a charter school must have a world's best workforce plan under section 120B.11 and an
The alternative teacher professional pay system agreement must:

1. describe how teachers can achieve career advancement and additional compensation;
2. describe how the school district, intermediate school district, school site, or charter school will provide teachers with career advancement options that allow teachers to retain primary roles in student instruction and facilitate site-focused professional development that helps other teachers improve their skills;
3. reform the "steps and lanes" salary schedule, prevent any teacher's compensation paid before implementing the pay system from being reduced as a result of participating in this system, base at least 60 percent of any compensation increase on teacher performance using:
   i. schoolwide student achievement gains under section 120B.35 or locally selected standardized assessment outcomes, or both;
   ii. measures of student growth and literacy that may include value-added models or student learning goals, consistent with section 122A.40, subdivision 8, paragraph (b), clause (9), or 122A.41, subdivision 5, paragraph (b), clause (9), and other measures that include the academic literacy, oral academic language, and achievement of English learners under section 122A.40, subdivision 8, paragraph (b), clause (10), or 122A.41, subdivision 5, paragraph (b), clause (10); and

4. provide for participation in job-embedded learning opportunities such as professional learning communities to improve instructional skills and learning that are aligned with student needs under section 120B.11, consistent with the staff development plan under section 122A.60 and led during the school day by trained teacher leaders such as master or mentor teachers;
5. allow any teacher in a participating school district, intermediate school district, school site, or charter school that implements an alternative pay system to participate in that system without any quota or other limit; and
6. encourage collaboration rather than competition among teachers.

The alternative teacher professional pay system may:
(1) include a hiring bonus or other added compensation for to provide students with equitable access to teachers who, consistent with section 120B.11, subdivision 2, clause (3):

(i) are identified as effective or highly effective under the local teacher professional review cycle and, when being considered for hire as first-year teachers, have demonstrated skills during student teaching for being highly effective at closing achievement gaps;

(ii) work in a high-need or hard-to-fill position; or

(iii) are hired to work in a hard-to-staff school such as a school with a majority of students whose families meet federal poverty guidelines, a geographically isolated school, or a school identified by the state as eligible for targeted programs or services for its students; and

(2) include incentives for teachers to obtain a master's degree or other advanced certification with at least 18 credits in their content field of licensure required for teaching concurrent enrollment or college in the schools courses, or to pursue the training or education necessary to obtain an additional licensure in shortage areas identified by the district or charter school; or

(3) help fund a “grow your own” Grow Your Own new teacher initiative involving nonlicensed educational professionals, including paraprofessionals and cultural liaisons.

(d) An intermediate school district under this subdivision must demonstrate in a form and manner determined by the commissioner that it uses the aid it receives under this section for activities identified in the alternative teacher professional pay system agreement.

Sec. 23. Minnesota Statutes 2016, section 122A.415, subdivision 4, is amended to read:

Subd. 4. Basic alternative teacher compensation aid. (a) The basic alternative teacher compensation aid for a school with a plan approved under section 122A.414, subdivision 2b, equals 65 percent of the alternative teacher compensation revenue under subdivision 1. The basic alternative teacher compensation aid for a charter school with a plan approved under section 122A.414, subdivisions 2a and 2b, equals $260 times the number of pupils enrolled in the school on October 1 of the previous year, or on October 1 of the current year for a charter school in the first year of operation, times the ratio of the sum of the alternative teacher compensation aid and alternative teacher compensation levy for all participating school districts to the maximum alternative teacher compensation revenue for those districts under subdivision 1.

(b) Notwithstanding paragraph (a) and subdivision 1, the state total basic alternative teacher compensation aid entitlement must not exceed $75,840,000 for fiscal year 2016 and
$88,118,000 for fiscal year 2017 and later. The commissioner must limit the amount of
alternative teacher compensation aid approved under this section so as not to exceed these
limits by not approving new participants or by prorating the aid among participating districts,
intermediate school districts, school sites, and charter schools. The commissioner may also
reallocate a portion of the allowable aid for the biennium from the second year to the first
year to meet the needs of approved participants.

(c) Basic alternative teacher compensation aid for an intermediate district or other
cooperative unit equals $3,000 times the number of licensed teachers employed by the
intermediate district or cooperative unit on October 1 of the previous school year.

Sec. 24. [122A.417] ALTERNATIVE TEACHER COMPENSATION REVENUE
FOR ST. CROIX RIVER EDUCATION DISTRICT.

Notwithstanding section 122A.415, subdivision 4, paragraph (c), the St. Croix River
Education District, No. 6009-61, is eligible to receive alternative teacher compensation
revenue based on its staffing as of October 1 of the previous fiscal year as reported to the
department in a manner determined by the commissioner. To qualify for alternative teacher
compensation revenue, the St. Croix River Education District must meet all the requirements
of sections 122A.414 and 122A.415 that apply to cooperative units, must report its staffing
as of October 1 of each year to the department in a manner determined by the commissioner,
and must annually report to the department by November 30 its expenditures for the
alternative teacher professional pay system consistent with the uniform financial accounting
and reporting standards.

Sec. 25. [122A.627] POSITIVE BEHAVIORAL INTERVENTIONS AND SUPPORTS.

"Positive behavioral interventions and supports" or "PBIS" means an evidence-based
framework for preventing problem behavior, providing instruction and support for positive
and prosocial behaviors, and supporting social, emotional, and behavioral needs for all
students. Schoolwide implementation of PBIS requires training, coaching, and evaluation
for school staff to consistently implement the key components that make PBIS effective for
all students, including:

1. establishing, defining, teaching, and practicing three to five positively stated
schoolwide behavioral expectations that are representative of the local community and
cultures;

2. developing and implementing a consistent system used by all staff to provide positive
feedback and acknowledgment for students who display schoolwide behavioral expectations;
(3) developing and implementing a consistent and specialized support system for students who do not display behaviors representative of schoolwide positive expectations;

(4) developing a system to support decisions based on data related to student progress, effective implementation of behavioral practices, and screening for students requiring additional behavior supports;

(5) using a continuum of evidence-based interventions that is integrated and aligned to support academic and behavioral success for all students; and

(6) using a team-based approach to support effective implementation, monitor progress, and evaluate outcomes.

Consistent with section 120B.232, subdivision 1, character education curriculum and programs may be used to support implementation of the key components of PBIS.

Sec. 26. Minnesota Statutes 2016, section 124D.03, subdivision 5a, is amended to read:

Subd. 5a. Lotteries. If a school district has more applications than available seats at a specific grade level, it must hold an impartial lottery following the January 15 deadline to determine which students will receive seats. The district must give priority to enrolling siblings of currently enrolled students, students whose applications are related to an approved integration and achievement plan, and children of the school district's staff must receive priority in the lottery, and students residing in that part of a municipality, defined under section 469.1812, subdivision 3, where:

(1) the student's resident district does not operate a school building;

(2) the municipality is located partially or fully within the boundaries of at least five school districts;

(3) the nonresident district in which the student seeks to enroll operates one or more school buildings within the municipality; and

(4) no other nonresident, independent, special or common school district operates a school building within the municipality.

The process for the school district lottery must be established in school district policy, approved by the school board, and posted on the school district's Web site.

EFFECTIVE DATE. This section is effective for lotteries conducted beginning July 1, 2017.

The governing board for each partner must approve the innovation zone plan.

(e) Upon unanimous approval of the initial innovation zone partners and approval of the commissioner of education, the innovation zone partnership may extend membership to other partners. A new partner's membership is effective 30 days after the innovation zone partnership notifies the commissioner of the proposed change in membership unless the commissioner disapproves the new partner's membership.

(f) Notwithstanding other law to the contrary, a school district or charter school participating in an innovative zone partnership under this section continues to receive all revenue and maintains its taxation authority in the same manner as before its participation in the innovation zone partnership. The innovation zone school district and charter school partners remain organized and governed by their respective school boards with general powers under chapter 123B or 124E, and remain subject to any employment agreements under chapters 122A and 179A. School district and charter school employees participating in an innovation zone partnership remain employees of their respective school district or charter school.

(g) An innovation zone partnership may submit its plan at any time to the commissioner in the form and manner specified by the commissioner. The commissioner must approve or reject the plan after reviewing the recommendation of the Innovation Research Zone Advisory Panel. SPECIAL EDUCATION

Section 1. Minnesota Statutes 2016, section 125A.0941, is amended to read:

125A.0941 DEFINITIONS.

(a) The following terms have the meanings given them.

(b) "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists.

(c) "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury. The term physical holding does not mean physical contact that:

(1) helps a child respond or complete a task;

(2) assists a child without restricting the child's movement;

(3) is needed to administer an authorized health-related service or procedure; or

(4) is needed to physically escort a child when the child does not resist or the child's resistance is minimal.
(d) "Positive behavioral interventions and supports" means interventions and strategies to improve the school environment and teach children the skills to behave appropriately including the key components under section 122A.627.

(e) "Prone restraint" means placing a child in a face down position.

(f) "Restrictive procedures" means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child.

(g) "Seclusion" means confining a child alone in a room from which egress is barred. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.

Sec. 2. Minnesota Statutes 2016, section 125A.11, subdivision 1, is amended to read:

Subdivision 1. Nonresident tuition rate; other costs. (a) For fiscal year 2015 and later, when a school district provides special instruction and services for a pupil with a disability as defined in section 125A.02 outside the district of residence, excluding a pupil for whom an adjustment to special education aid is calculated according to section 127A.47, subdivision 7, paragraphs (b) to (d), special education aid paid to the resident district must be reduced by an amount equal to (1) the actual cost of providing special instruction and services to the pupil, including a proportionate amount for special transportation, plus (2) the amount of general education revenue, excluding local optional revenue, plus local optional aid and referendum equalization aid attributable to that pupil, calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue, minus (3) the amount of special education aid for children with a disability under section 125A.76 received on behalf of that child, minus (4) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue and the serving district's basic skills revenue, elementary sparsity revenue and secondary sparsity revenue per adjusted pupil unit.
Notwithstanding clauses (1) and (4), for pupils served by a cooperative unit without a fiscal
agent school district, the general education revenue and referendum equalization aid
attributable to a pupil must be calculated using the resident district's average general
education revenue and referendum equalization aid excluding compensatory revenue,
elementary sparsity revenue, and secondary sparsity revenue. Special education aid paid to
the district or cooperative providing special instruction and services for the pupil must be
increased by the amount of the reduction in the aid paid to the resident district. If the resident
district's special education aid is insufficient to make the full adjustment, the remaining
adjustment shall be made to other state aid due to the district.

(b) Notwithstanding paragraph (a), when a charter school receiving special education
aid under section 124E.21, subdivision 3, provides special instruction and services for a
pupil with a disability as defined in section 125A.02, excluding a pupil for whom an
adjustment to special education aid is calculated according to section 127A.47, subdivision
7, paragraphs (b) to (e), special education aid paid to the resident district must be reduced
by an amount equal to that calculated under paragraph (a) as if the charter school received
aid under section 124E.21, subdivision 1. Notwithstanding paragraph (a), special education
aid paid to the charter school providing special instruction and services for the pupil must
not be increased by the amount of the reduction in the aid paid to the resident district.

to (d):

(1) an intermediate district or a special education cooperative may recover unreimbursed
costs of serving pupils with a disability, including building lease, debt service, and indirect
costs necessary for the general operation of the organization, by billing membership fees
and nonmember access fees to the resident district;

(2) a charter school where more than 30 percent of enrolled students receive special
education and related services, a site approved under section 125A.515, an intermediate
district, a site constructed according to Laws 1992, chapter 558, section 7, subdivision 7,
to meet the educational needs of court-placed adolescents, or a special education cooperative
may apply to the commissioner for authority to charge the resident district an additional
amount to recover any remaining unreimbursed costs of serving pupils with a disability;

(3) the billing under clause (1) or application under clause (2) must include a description
of the costs and the calculations used to determine the unreimbursed portion to be charged
to the resident district. Amounts approved by the commissioner under clause (2) must be
included in the aid adjustments under paragraph (a), or section 127A.47, subdivision 7, paragraphs (b) to (d), as applicable.

(d) For purposes of this subdivision and section 127A.47, subdivision 7, paragraph (b), "general education revenue and referendum equalization aid" means the sum of the general education revenue according to section 126C.10, subdivision 1, excluding the local optional levy according to section 126C.10, subdivision 2e, paragraph (c), plus the referendum equalization aid according to section 126C.17, subdivision 7.

Subd. 2. Third-party reimbursement. (a) Beginning July 1, 2000, districts shall seek reimbursement from insurers and similar third parties for the cost of services provided by the district whenever the services provided by the district are otherwise covered by the child's health coverage. Districts shall request, but may not require, the child's family to provide information about the child's health coverage when a child with a disability begins to receive services from the district of a type that may be reimbursable, and shall request, but may not require, updated information after that as needed.

(b) For children enrolled in medical assistance under chapter 256B or MinnesotaCare under chapter 256L who have no other health coverage, a district shall provide an initial and annual written notice to the enrolled child's parent or legal representative of its intent to seek reimbursement from medical assistance or MinnesotaCare for:

(2) health-related services provided by the district according to the individualized education program or individualized family service plan.

(c) The district shall give the parent or legal representative annual written notice of:

(1) the district's intent to seek reimbursement from medical assistance or MinnesotaCare for evaluations required as part of the individualized education program process or individualized family service plan process, and for health-related services provided by the
district according to the individualized education program or individualized family service plan;

The written notice shall be provided as part of the written notice required by Code of Federal Regulations, title 34, section 300.504 or 303.520. The district must ensure that the parent of a child with a disability is given notice, in understandable language, of federal and state procedural safeguards available to the parent under this paragraph and paragraph (b).

(d) In order to access the private health care coverage of a child who is covered by private health care coverage in whole or in part, a district must:

(1) obtain annual written informed consent from the parent or legal representative, in compliance with subdivision 5; and

(2) inform the parent or legal representative that a refusal to permit the district or state Medicaid agency to access their private health care coverage does not relieve the district of its responsibility to provide all services necessary to provide free and appropriate public education at no cost to the parent or legal representative.

(e) If the commissioner of human services obtains federal approval to exempt covered individualized education program or individualized family service plan health-related services from the requirement that private health care coverage refuse payment before medical assistance may be billed, paragraphs (b), (c), and (d) shall also apply to students with a combination of private health care coverage and health care coverage through medical assistance or MinnesotaCare.

(f) In the event that Congress or any federal agency or the Minnesota legislature or any state agency establishes lifetime limits, limits for any health care services, cost-sharing provisions, or otherwise provides that individualized education program or individualized family service plan health-related services impact benefits for persons enrolled in medical assistance or MinnesotaCare, the amendments to this subdivision adopted in 2002 are repealed on the effective date of any federal or state law or regulation that imposes the limits. In that event, districts must obtain informed consent consistent with this subdivision as it existed prior to the 2002 amendments and subdivision 5, before seeking reimbursement.

for children enrolled in medical assistance under chapter 256B or MinnesotaCare under
chapter 256L who have no other health care coverage.

**EFFECTIVE DATE.** This section is effective August 1, 2017.

Sec. 4. Minnesota Statutes 2016, section 125A.515, is amended to read:

**125A.515 PLACEMENT OF STUDENTS; APPROVAL OF EDUCATION PROGRAM.**

Subdivision 1. **Approval of on-site education programs.** The commissioner shall
approve on-site education programs for placement of children and youth in residential
facilities including detention centers, before being licensed by the Department of Human
Services or the Department of Corrections. Education programs in these facilities shall
conform to state and federal education laws including the Individuals with Disabilities
Education Act (IDEA). This section applies only to placements in children's residential
facilities licensed by the Department of Human Services or the Department of Corrections.
For purposes of this section, "on-site education program" means the educational services
provided directly on the grounds of the care and treatment children's residential facility to
children and youth placed for care and treatment.

Subd. 3. **Responsibilities for providing education.** (a) The district in which the children's
residential facility is located must provide education services, including special education
if eligible, to all students placed in a facility.

(b) For education programs operated by the Department of Corrections, the providing
district shall be the Department of Corrections. For students remanded to the commissioner
of corrections, the providing and resident district shall be the Department of Corrections.

Subd. 3a. **Students without a disability from other states.** A school district is not
required to provide education services under this section to a student who:

(1) is not a resident of Minnesota;

(2) does not have an individualized education program; and

(3) does not have a tuition arrangement or agreement to pay the cost of education from
the placing authority.

Subd. 4. **Education services required.** (a) Education services must be provided to a
student beginning within three business days after the student enters the care and treatment
children's residential facility. The first four days of the student's placement may be used to
screen the student for educational and safety issues.
(b) If the student does not meet the eligibility criteria for special education, regular education services must be provided to that student.

Subd. 5. Education programs for students placed in children's residential facilities.  
(a) When a student is placed in a children's residential facility approved under this section that has an on-site education program, the providing district, upon notice from the care and treatment children's residential facility, must contact the resident district within one business day to determine if a student has been identified as having a disability, and to request at least the student's transcript, and for students with disabilities, the most recent individualized education program (IEP) and evaluation report, and to determine if the student has been identified as a student with a disability. The resident district must send a facsimile copy to the providing district within two business days of receiving the request.

(b) If a student placed under this section has been identified as having a disability and has an individualized education program in the resident district:

(1) the providing agency must conduct an individualized education program meeting to reach an agreement about continuing or modifying special education services in accordance with the current individualized education program goals and objectives and to determine if additional evaluations are necessary; and

(2) at least the following people shall receive written notice or documented phone call to be followed with written notice to attend the individualized education program meeting:

(i) the person or agency placing the student;

(ii) the resident district;

(iii) the appropriate teachers and related services staff from the providing district;

(iv) appropriate staff from the children's residential facility;

(v) the parents or legal guardians of the student; and

(vi) when appropriate, the student.

(c) For a student who has not been identified as a student with a disability, a screening must be conducted by the providing districts as soon as possible to determine the student's educational and behavioral needs and must include a review of the student's educational records.

Subd. 6. Exit report summarizing educational progress. If a student has been placed in a facility under this section for 15 or more business days, the providing district must prepare an exit report summarizing the regular education, special education, evaluation,
educational progress, and service information and must send the report to the resident district
and the next providing district if different, the parent or legal guardian, and any appropriate
social service agency. For students with disabilities, this report must include the student's
IEP.

Subd. 7. Minimum educational services required. When a student is placed in a
children's residential facility approved under this section, at a minimum, the providing
district is responsible for:

(1) the education necessary, including summer school services, for a student who is not
performing at grade level as indicated in the education record or IEP; and

(2) a school day, of the same length as the school day of the providing district, unless
the unique needs of the student, as documented through the IEP or education record in
consultation with treatment providers, requires an alteration in the length of the school day.

Subd. 8. Placement, services, and due process. When a student's treatment and
educational needs allow, education shall be provided in a regular educational setting. The
determination of the amount and site of integrated services must be a joint decision between
the student's parents or legal guardians and the treatment and education staff. When
applicable, educational placement decisions must be made by the IEP team of the providing
district. Educational services shall be provided in conformance with the least restrictive
environment principle of the Individuals with Disabilities Education Act. The providing
district and care and treatment children's residential facility shall cooperatively develop
discipline and behavior management procedures to be used in emergency situations that
comply with the Minnesota Pupil Fair Dismissal Act and other relevant state and federal
laws and regulations.

Subd. 9. Reimbursement for education services. (a) Education services provided to
students who have been placed under this section are reimbursable in accordance with
special education and general education statutes.

(b) Indirect or consultative services provided in conjunction with regular education
prereferral interventions and assessment provided to regular education students suspected
of being disabled and who have demonstrated learning or behavioral problems in a screening
are reimbursable with special education categorical aids.

(c) Regular education, including screening, provided to students with or without
disabilities is not reimbursable with special education categorical aids.
Subd. 10. Students unable to attend school but not covered under this section.

Students who are absent from, or predicted to be absent from, school for 15 consecutive or intermittent days, and placed at home or in facilities not licensed by the Departments of Corrections or Human Services are entitled to regular and special education services consistent with this section or Minnesota Rules, part 3525.2325. These students include students with and without disabilities who are home due to accident or illness, in a hospital or other medical facility, or in a day treatment center.

Sec. 5. Minnesota Statutes 2016, section 125A.74, subdivision 1, is amended to read:

Subdivision 1. Eligibility. A district may enroll as a provider in the medical assistance program and receive medical assistance payments for covered evaluations and special education services provided to persons eligible for medical assistance under chapter 256B. To receive medical assistance payments, the district must pay the nonfederal share of medical assistance services provided according to section 256B.0625, subdivision 26, and comply with relevant provisions of state and federal statutes and regulations governing the medical assistance program.

EFFECTIVE DATE. This section is effective August 1, 2017.

Sec. 6. Minnesota Statutes 2016, section 125A.76, subdivision 2c, is amended to read:

Subd. 2c. Special education aid. (a) For fiscal year 2016 and later, a district's special education aid equals the sum of the district's special education initial aid under subdivision 2a and the district's excess cost aid under section 125A.79, subdivision 5.

(b) Notwithstanding paragraph (a), for fiscal year 2016, the special education aid for a school district must not exceed the sum of the special education aid the district would have received for fiscal year 2016 under Minnesota Statutes 2012, sections 125A.76 and 125A.79, as adjusted according to Minnesota Statutes 2012, sections 125A.11 and 127A.47, subdivision 7, and the product of the district's average daily membership served and the special education aid increase limit.

(c) Notwithstanding paragraph (a), for fiscal year 2017 and later, the special education aid for a school district must not exceed the sum of: (i) the product of the district's average daily membership served and the special education aid increase limit and (ii) the product of the sum of the special education aid the district would have received for fiscal year 2016 under Minnesota Statutes 2012, sections 125A.76 and 125A.79, as adjusted according to Minnesota Statutes 2012, sections 125A.11 and 127A.47, subdivision 7, the ratio of the
district's average daily membership served for the current fiscal year to the district's average daily membership served for fiscal year 2016, and the program growth factor.

(d) Notwithstanding paragraph (a), for fiscal year 2016 and later the special education aid for a school district, not including a charter school or cooperative unit as defined in section 123A.24, must not be less than the lesser of (1) the district's nonfederal special education expenditures for that fiscal year or (2) the product of the sum of the special education aid the district would have received for fiscal year 2016 under Minnesota Statutes 2012, sections 125A.76 and 125A.79, as adjusted according to Minnesota Statutes 2012, sections 125A.11 and 127A.47, subdivision 7, the ratio of the district's adjusted daily membership for the current fiscal year to the district's average daily membership for fiscal year 2016, and the program growth factor.

(e) Notwithstanding subdivision 2a and section 125A.79, a charter school in its first year of operation shall generate special education aid based on current year data. A newly formed cooperative unit as defined in section 123A.24 may apply to the commissioner for approval to generate special education aid for its first year of operation based on current year data, with an offsetting adjustment to the prior year data used to calculate aid for programs at participating school districts or previous cooperatives that were replaced by the new cooperative. The department shall establish procedures to adjust the prior year data and fiscal year 2016 old formula aid used in calculating special education aid to exclude costs that have been eliminated for districts where programs have closed or where a substantial portion of the program has been transferred to a cooperative unit.

(f) The department shall establish procedures through the uniform financial accounting and reporting system to identify and track all revenues generated from third-party billings as special education revenue at the school district level; include revenue generated from third-party billings as special education revenue in the annual cross-subsidy report; and exclude third-party revenue from calculation of excess cost aid to the districts.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2018 and later.

Sec. 7. Minnesota Statutes 2016, section 256B.0625, subdivision 26, is amended to read:

Subd. 26. Special education services. (a) Medical assistance covers evaluations necessary in making a determination for eligibility for individualized education program and individualized family service plan services and for medical services identified in a recipient's individualized education program and individualized family service plan and covered under the medical assistance state plan. Covered services include occupational therapy, physical therapy, speech-language therapy, clinical psychological services, nursing services, school
psychological services, school social work services, personal care assistants serving as
management aides, assistive technology devices, transportation services, health assessments,
and other services covered under the medical assistance state plan. Mental health services
eligible for medical assistance reimbursement must be provided or coordinated through a
children's mental health collaborative where a collaborative exists if the child is included
in the collaborative operational target population. The provision or coordination of services
does not require that the individualized education program be developed by the collaborative.

The services may be provided by a Minnesota school district that is enrolled as a medical
assistance provider or its subcontractor, and only if the services meet all the requirements
otherwise applicable if the service had been provided by a provider other than a school
district, in the following areas: medical necessity, physician's orders, documentation,
personnel qualifications, and prior authorization requirements. The nonfederal share of costs
for services provided under this subdivision is the responsibility of the local school district
as provided in section 125A.74. Services listed in a child's individualized education program
are eligible for medical assistance reimbursement only if those services meet criteria for
federal financial participation under the Medicaid program.

(b) Approval of health-related services for inclusion in the individualized education
program does not require prior authorization for purposes of reimbursement under this
chapter. The commissioner may require physician review and approval of the plan not more
than once annually or upon any modification of the individualized education program that
reflects a change in health-related services.

(c) Services of a speech-language pathologist provided under this section are covered
notwithstanding Minnesota Rules, part 9505.0390, subpart 1, item L, if the person:

(1) holds a masters degree in speech-language pathology;

(2) is licensed by the Minnesota Board of Teaching as an educational speech-language
pathologist; and

(3) either has a certificate of clinical competence from the American Speech and Hearing
Association, has completed the equivalent educational requirements and work experience
necessary for the certificate or has completed the academic program and is acquiring
supervised work experience to qualify for the certificate.

(d) Medical assistance coverage for medically necessary services provided under other
subdivisions in this section may not be denied solely on the basis that the same or similar
services are covered under this subdivision.
(e) The commissioner shall develop and implement package rates, bundled rates, or per
diem rates for special education services under which separately covered services are grouped
together and billed as a unit in order to reduce administrative complexity.

(f) The commissioner shall develop a cost-based payment structure for payment of these
services. Only costs reported through the designated Minnesota Department of Education
data systems in distinct service categories qualify for inclusion in the cost-based payment
structure. The commissioner shall reimburse claims submitted based on an interim rate, and
shall settle at a final rate once the department has determined it. The commissioner shall
notify the school district of the final rate. The school district has 60 days to appeal the final
rate. To appeal the final rate, the school district shall file a written appeal request to the
commissioner within 60 days of the date the final rate determination was mailed. The appeal
request shall specify (1) the disputed items and (2) the name and address of the person to
contact regarding the appeal.

(g) Effective July 1, 2000, medical assistance services provided under an individualized
education program or an individual family service plan by local school districts shall not
count against medical assistance authorization thresholds for that child.

(h) Nursing services as defined in section 148.171, subdivision 15, and provided as an
individualized education program health-related service, are eligible for medical assistance
payment if they are otherwise a covered service under the medical assistance program.
Medical assistance covers the administration of prescription medications by a licensed nurse
who is employed by or under contract with a school district when the administration of
medications is identified in the child's individualized education program. The simple
administration of medications alone is not covered under medical assistance when
administered by a provider other than a school district or when it is not identified in the
child's individualized education program.

**EFFECTIVE DATE.** This section is effective August 1, 2017.

Sec. 8. Laws 2016, chapter 189, article 25, section 62, subdivision 17, is amended to read:

education program to support Minnesota resident residents working toward licensure in an
online program, including persons currently employed as:

(1) special education paraprofessionals working toward licensure in an online program;

(2) teachers without a special education license working on a variance; or

The commissioner must consult with the Minnesota Assistive Technology Advisory Council and other interested organizations to determine the scope and focus of the study.

To the extent possible, the commissioners shall base the plan on the standards established by the United States Environmental Protection Agency. The plan may be based on the technical guidance in the Department of Health's document, "Reducing Lead in Drinking Water: A Technical Guidance for Minnesota's School and Child Care Facilities."
Subd. 2. **School plans.** By July 1, 2018, the board of each school district or charter school must adopt the commissioners' model plan or develop and adopt an alternative plan to accurately and efficiently test for the presence of lead in water in school buildings serving prekindergarten students and students in kindergarten through grade 12.

**EFFECTIVE DATE.** This section is effective June 30, 2018.
Sec. 5. Minnesota Statutes 2016, section 123A.30, subdivision 6, is amended to read:

Subd. 6. Severance pay. A district must pay severance pay to a teacher who is placed on unrequested leave of absence by the district as a result of the agreement. A teacher is eligible under this subdivision if the teacher:

(1) is a teacher, but not a superintendent;

(2) has a continuing contract with the district according to section 122A.40, subdivision 7.

The amount of severance pay must be equal to the teacher's salary for the school year during which the teacher was placed on unrequested leave of absence minus the gross amount the teacher was paid during the 12 months following the teacher's termination of salary, by an entity whose teachers by statute or rule must possess a valid Minnesota teaching license, and minus the amount a teacher receives as severance or other similar pay according to a contract with the district or district policy. These entities requiring a valid Minnesota teaching license include, but are not limited to, the district that placed the teacher on unrequested leave of absence, another district in Minnesota, an education district, an intermediate school district, a service cooperative, a board formed under section 471.59, a state residential academy, the Perpich Center for Arts Education, a vocational center, or a special education cooperative. These entities do not include a district in another state, a Minnesota public postsecondary institution, or a state agency. Only amounts earned by the teacher as a substitute teacher or in a position requiring a valid Minnesota teaching license shall be subtracted. A teacher may decline any offer of employment as a teacher without loss of rights to severance pay.

To determine the amount of severance pay that is due for the first six months following termination of the teacher's salary, the district may require the teacher to provide documented evidence of the teacher's employers and gross earnings during that period. The district must pay the teacher the amount of severance pay it determines to be due from the proceeds of the levy for this purpose. To determine the amount of severance pay that is due for the second six months of the 12 months following the termination of the teacher's salary, the district may require the teacher to provide documented evidence of the teacher's employers and gross earnings during that period. The district must pay the teacher the amount of severance pay it determines to be due from the proceeds of the levy for this purpose.

A teacher who receives severance pay under this subdivision waives all further reinstatement rights under section 122A.40, subdivision 10 or 11. If the teacher receives severance pay, the teacher shall not receive credit for any years of service in the district.

NUTRITION

Section 1. Minnesota Statutes 2016, section 123B.52, subdivision 1, is amended to read:

Subdivision 1. Contracts. A contract for work or labor, or for the purchase of furniture, fixtures, or other property, except books registered under the copyright laws and information systems software, or for the construction or repair of school houses, the estimated cost or value of which shall exceed that specified in section 471.345, subdivision 3, must not be made by the school board without first advertising for bids or proposals by two weeks’ published notice in the official newspaper. This notice must state the time and place of receiving bids and contain a brief description of the subject matter.

Additional publication in the official newspaper or elsewhere may be made as the board shall deem necessary.

After taking into consideration conformity with the specifications, terms of delivery, and other conditions imposed in the call for bids, every such contract for which a call for bids has been issued must be awarded to the lowest responsible bidder, be duly executed in writing, and be otherwise conditioned as required by law. The person to whom the contract is awarded shall give a sufficient bond to the board for its faithful performance.

Notwithstanding section 574.26 or any other law to the contrary, on a contract limited to the purchase of a finished tangible product, a board may require, at its discretion, a performance bond of a contractor in the amount the board considers necessary. A record must be kept of all bids, with names of bidders and amount of bids, and with the successful bid indicated thereon. A bid containing an alteration or erasure of any price contained in the bid which is used in determining the lowest responsible bid must be rejected unless the alteration or erasure is corrected as provided in this section. An alteration or erasure may be crossed out and the correction thereof printed in ink or typewritten adjacent thereto and initialed in ink by the person signing the bid. In the case of identical low bids from two or more bidders, the board may, at its discretion, utilize negotiated procurement methods with the tied low bidders for that particular transaction, so long as the price paid does not exceed the low tied bid price. In the case where only a single bid is received, the board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not exceed the original bid. If no satisfactory bid is received, the board may readvertise. Standard requirement price contracts established for supplies or services to be purchased by the district must be established by competitive bids. Such standard requirement price contracts may contain escalation clauses and may provide for a negotiated price increase.
or decrease based upon a demonstrable industrywide or regional increase or decrease in the vendor's costs. Either party to the contract may request that the other party demonstrate such increase or decrease. The term of such contracts must not exceed two years with an option on the part of the district to renew for an additional two years, except as provided in subdivision 7. Contracts for the purchase of perishable food items, except milk for school lunches and vocational training programs, in any amount may be made by direct negotiation by obtaining two or more written quotations for the purchase or sale, when possible, without advertising for bids or otherwise complying with the requirements of this section or section 471.345, subdivision 3. All quotations obtained shall be kept on file for a period of at least one year after receipt.

Every contract made without compliance with the provisions of this section shall be void. Except in the case of the destruction of buildings or injury thereto, where the public interest would suffer by delay, contracts for repairs may be made without advertising for bids.

**EFFECTIVE DATE.** This section is effective for contracts entered into on or after July 1, 2017.

The commissioner of education shall establish a program supporting a coalition of coordinated, aligned education partnerships as specified in this section, for a comprehensive network of evidence-based support services designed to close opportunity gaps by improving educational and developmental outcomes of children and their families within communities experiencing poverty and impediments to economic viability.

Subd. 2. Definitions. (a) For purposes of this section the terms defined in this subdivision have the meanings given them.

(b) "Tier 1 grant" means a sustaining grant for the ongoing operation, stability, and expansion of existing education partnership program locations.

(c) "Tier 2 grant" means an implementation grant for expanding activity in education partnership program locations.

Subd. 3. Administration; design. (a) The commissioner shall establish program requirements, an application process and timeline for each tier of grants specified in subdivision 4, criteria for evaluation of applications, and a grant awards process. The commissioner's process must minimize administrative costs, minimize burdens for applicants and grant recipients, and provide a framework that permits flexibility in program design and implementation among grant recipients.

(b) To the extent practicable, the commissioner shall design the program to align with programs implemented or proposed by organizations in Minnesota that:

(1) identify and increase the capacity of organizations that are focused on achieving data-driven, locally controlled positive outcomes for children and youth throughout an entire neighborhood or geographic area through programs such as Strive Together, Promise Neighborhood, and the Education Partnerships Coalition members;

(2) build a continuum of educational family and community supports with academically rigorous schools at the center;

(3) maximize program efficiencies by integrating programmatic activities and eliminating administrative barriers;

(4) develop local infrastructure needed to sustain and scale up proven and effective solutions beyond the initial neighborhood or geographic area; and

(5) utilize appropriate outcome measures based on unique community needs and interests and apply rigorous evaluation on a periodic basis to be used to both monitor outcomes and allow for continuous improvements to systems.
A grant recipient's supportive services programming must address:

1. kindergarten readiness and youth development;
2. grade 3 reading proficiency;
3. high school graduation;
4. postsecondary educational attainment;
5. physical and mental health;
6. development of career skills and readiness;
7. parental engagement and development;
8. community engagement and programmatic alignment; and
9. reduction of remedial education.

The commissioner, in consultation with grant recipients, must:

1. develop and revise core indicators of progress toward outcomes specifying impacts for each tier identified under subdivision 4;
2. establish a reporting system for grant recipients to measure program outcomes using data sources and program goals; and
3. evaluate effectiveness based on the core indicators established by each partnership for each tier.

A grant recipient's program in the planning, development, or implementation phase must include:

1. integrated supportive services programming, as specified in paragraph (b), within a specific community or geographic area for all ages of children and youth and their families within that area, provided that services may be phased in to all ages over time; and
2. a system for evaluating goals and outcomes as provided under subdivision 3, paragraph (c).

The commissioner shall award Tier 1 and Tier 2 grants to qualifying recipients that can demonstrate a nonstate source of funds, including in-kind contributions.

By December 15 of each odd-numbered year, the commissioner shall submit a report on the education partnership program to the chairs and ranking minority members of the legislative committees having jurisdiction over kindergarten through grade 12 education, early childhood education, economic development, and human
services. At a minimum, the report must summarize grantee activities, identify grant
recipients and awards, analyze program performance measures and outcomes, and make
any recommendations for legislative changes.

**ARTICLE 10**

**SELF-SUFFICIENCY AND LIFELONG LEARNING**

Section 1. Minnesota Statutes 2016, section 124D.52, subdivision 7, is amended to read:

Subd. 7. **Performance tracking system.** (a) By July 1, 2000, each approved adult basic education program must develop and implement a performance tracking system to provide information necessary to comply with federal law and serve as one means of assessing the effectiveness of adult basic education programs. For required reporting, longitudinal studies, and program improvement, the tracking system must be designed to collect data on the following core outcomes for learners, including English learners, who have completed participating in the adult basic education program:

1. demonstrated improvements in literacy skill levels in reading, writing, speaking the English language, numeracy, problem solving, English language acquisition, and other literacy skills;
(2) placement in, retention in, or completion of postsecondary education, training, unsubsidized employment, or career advancement; (3) receipt of a secondary school diploma or its recognized equivalent; and (4) reduction in participation in the diversionary work program, Minnesota family investment program, and food support education and training program.

(b) A district, group of districts, state agency, or private nonprofit organization providing an adult basic education program may meet this requirement by developing a tracking system based on either or both of the following methodologies:

(1) conducting a reliable follow-up survey; or

(2) submitting student information, including collected Social Security numbers for data matching.

Data related to obtaining employment must be collected in the first quarter following program completion or can be collected while the student is enrolled, if known. Data related to employment retention must be collected in the third quarter following program exit. Data related to any other of the specified outcomes may be collected at any time during a program year.

(c) When a student in a program is requested to provide the student's Social Security number, the student must be notified in a written form easily understandable to the student that:

(1) providing the Social Security number is optional and no adverse action may be taken against the student if the student chooses not to provide the Social Security number;

(2) the request is made under section 124D.52, subdivision 7;

(3) if the student provides the Social Security number, it will be used to assess the effectiveness of the program by tracking the student's subsequent career; and

(4) the Social Security number will be shared with the Department of Education; Minnesota State Colleges and Universities; Office of Higher Education; Department of Human Services; and Department of Employment and Economic Development in order to accomplish the purposes described in paragraph (a) and will not be used for any other purpose or reported to any other governmental entities.

(d) Annually a district, group of districts, state agency, or private nonprofit organization providing programs under this section must forward the tracking data collected to the Department of Education. For the purposes of longitudinal studies on the employment status
of former students under this section, the Department of Education must forward the Social
Security numbers to the Department of Employment and Economic Development to
electronically match the Social Security numbers of former students with wage detail reports
filed under section 268.044. The results of data matches must, for purposes of this section
and consistent with the requirements of the United States Code, title 29, section 2871, of
the Workforce Investment Act of 1998 Workforce Innovation and Opportunity Act, be
compiled in a longitudinal form by the Department of Employment and Economic
Development and released to the Department of Education in the form of summary data
that does not identify the individual students. The Department of Education may release
this summary data. State funding for adult basic education programs must not be based on
the number or percentage of students who decline to provide their Social Security numbers
or on whether the program is evaluated by means of a follow-up survey instead of data
matching.
