

South Washington County Schools
Safer. Stronger. Together.
Dashboard for Determining Learning Model

Consideration 1: MDE's Thresholds for Safely Re-opening our Schools/The spread of the virus

- **County case rates?**

<https://www.health.state.mn.us/diseases/coronavirus/stats/wscool.pdf>

MDE Guidance	In-person learning for all students	In Person for elementary; hybrid for secondary	Hybrid for all	Hybrid for Elementary; DL for secondary	DL for all students
MDE's Recommended Learning Model; Number of cases (per 10,000) over 14 days	0-9	10 - 19	20 - 29	30 - 49	50+
September 3			22.94		
September 10			22.11		
September 17			17.21		
September 24					
October 2					

**South Washington County Schools

Dashboard for Determining Learning Model**

October 23					
-------------------	--	--	--	--	--

Questions to consider:

- How many isolated outbreaks?
- Widespread community transmission? Yes
- Are cases traceable to the school community or the result of a different exposure? 22 Community, 21 Household, 18 Unknown, 2 School
- Where are the cases occurring and is there a common theme? Secondary - which matches what the state is seeing.
- How many outbreaks have we had in the school district?
- How many close contacts does each reported case have?
- Numbers from surrounding counties?

Consideration 2: Success in the existing model - September 11th - Hybrid

Consideration 3: Staff reports of illness

- **Situation reports submitted**
- **Number of staff absent**
- **Reason for absence**

Staff Reports/Absences August 31 to 9/10	Absence due to positive case	Absence due to close contact/need to be quarantined
Elementary Teachers	1 - working remotely	16 - working remotely

South Washington County Schools
Safer. Stronger. Together.
Dashboard for Determining Learning Model

Middle School Teachers	0	1 - Out; 10 working remotely
High School Teachers	3 - all working remotely	17 - working remotely
Administrators	0	2 - working remotely
Office support	2 - Out (HCS); 2 working remotely	0
Paraprofessionals	0	1 - Out
Nutrition Services	0	0
Bus Drivers/Assist/Mechanic	0	1 - Out
Custodians	0	1 - Out
Child Care	0	1 KC Supervisor
TOTAL	6 - working remotely 2- absent/no remote work	45 - working remotely 5 - absent/no remote work

Consideration 4: Student reports of illness

- **Number of students absent**
- **Reason for absence**

Student Reports (09/08/20 - 09/10/20)	Absence due to positive case	Absence due to close contact/quarantine	Absence due to other
--	------------------------------	---	----------------------

South Washington County Schools

Dashboard for Determining Learning Model

Elementary (14)	2	49 CC 34 symptoms	24
Middle School (4)	4	16 CC 6 symptoms	2
High School (3)	6	76 CC 2 symptoms	8
TOTAL	12	141 Close Contact/42 symptoms	34

Questions to consider:

- How many isolated outbreaks?
- Widespread community transmission?
- Are cases traceable to the school community or the result of a different exposure?
- Where are the cases occurring and is there a common theme?
- How many outbreaks have we had in the school district? How many students in quarantine?
- How many close contacts does each reported case have?
- Are students, staff and parents forthcoming about close contacts? So far but not always right away
- Is there any significant transmission in the surrounding communities/districts that would likely impact our staff and families?

Consideration 5: Staffing schools and departments

	In-person learning for all students	In Person for elementary; hybrid for secondary	Hybrid for all	Hybrid for Elementary; DL for secondary	DL for all students
--	-------------------------------------	--	----------------	---	---------------------

South Washington County Schools
Safer. Stronger. Together.
Dashboard for Determining Learning Model

Staffing DRAFT RUBRIC	Single standalone cases are confirmed but close contacts are quickly identified	Multiple (2-3) cases are confirmed among staff and close contacts are identified and quarantined within 24 hours	Number of school staff absent or sent home reaches approximately 5% of the total number of staff/students in a school within a single week	Multiple cases are identified within a short period of time within the district or a school; number of schools staff absent or sent home reaches approximately 5-10%	High levels of viral transmission in the school or county; Wait a minimum of 2-3 weeks before bringing students back for hybrid
--	---	--	--	--	---

Staff	Open Positions	Approved Requests for remote work/VLA (Overall, Medical or Dependent)
Elementary Teachers	1 + subs	60
Middle School Teachers	0 + subs	21
High School Teachers	1 + subs	54
Administrators	0	1
Office Support	2	1
Paraprofessionals	24 - due to resignation/retirement; 32 due to LOA	6
Bus Drivers	2	0
Custodial Staff	1	0
Nutrition Services	0	0

Questions to consider:

- How many positions require the need for a substitute?
- Do we have access to enough substitutes in the area of need?
- Are we able to move staff between the system and levels?

South Washington County Schools
Safer. Stronger. Together.
Dashboard for Determining Learning Model

Consideration 6: Student illness from school

Students	Single standalone cases are confirmed but close contacts are quickly identified	Multiple (2-3) cases are confirmed among students and close contacts are identified and quarantined within 24 hours	Number of students absent or sent home reaches approximately 5-10% of the total number of students in a school	Multiple cases are identified within a short period of time within the district or a school; number of students absent or sent home reaches approximately 10-15%	High levels of viral transmission in the school or county; Wait a minimum of 2-3 weeks before bringing students back for hybrid
DRAFT RUBRIC					

Student	VLA absences (any reason)	Dial option absences (COVID)	Total absences
Elementary	09/08 - 58 09/09 - 60 09/10 - 45	09/08 - 26 09/09 - 28 09/10 - 33	09/08 - 163 09/09 - 161 09/10 - 143

Dashboard for Determining Learning Model

			09/10 - 1142 (periods m 149 in person all day
--	--	--	--

Consideration 7: Adequate Space in Schools (i.e. Hybrid and need for Social Distancing, In-Person safety measures)

Space (classroom) in schools and number of onsite teachers -- may need to be considered together for feasibility to certain number of students per day in hybrid mode
