

## Our Vision, is to . . .

Reimagine Public Education

## We believe . . .

Public Education is foundational to Minnesota's future prosperity.

Public education must be non-partisan and the highest priority of state government.

State education policy and resource allocation must recognize and support the unique needs of member districts.

The collective and consistent advocacy of member districts is critical to achieving our mission.

Minnesota's education system is unjust and inequitable and does not provide sufficient resources to ensure all students thrive.

## Our Mission is to . . .

Advocate for member school districts so they can lead the transformation of public education.

## Our Strategic Priorities are to . . .

Advocate for funding and policies that respect and empower local districts to meet the needs of each and every student.

Create opportunities for school district leaders to collaborate, innovate, generate solutions, and share best practices.

Generate nonpartisan research, data and legislative updates that assist AMSD members to effectively advocate for our school districts and students.

Advance the work of Reimagine Minnesota.
