Define and Own Your Ideal Culture

*Culture* is a collection of attitudes, beliefs and behaviors that make up the regular atmosphere in a work/school environment.

**Targeted Goal:** Define your ideal culture, then do a gap analysis of where you are today, compared to your ideal (0-100% actualized).

The Hope Survey – How it Works

1. **Customize your survey.** We help your team customize your survey, so it is personalized to your school.

2. **Orient participants.** We support you in orienting staff and students before your survey administrator(s) distribute the survey link to participants.

3. **Take the survey.** Participants take a 75-question online survey (30 minutes via computer, phone or tablet).

4. **Debrief results.** Survey administrators have instant access to aggregated, anonymous data and customizable on-demand reports. We provide a debrief of results with your team.
