

STATE ENROLLMENT

AMSD school districts enroll more than half of all public school students in Minnesota.

STUDENTS OF COLOR

Nearly 70 percent of the state’s approximately 328,000 students of color are enrolled in AMSD school districts. AMSD members are committed to closing racial achievement gaps to ensure all students receive an equitable and excellent education.

SPECIAL EDUCATION

Special Education costs exceeded state and federal education aid by more than \$477 million for AMSD member districts in FY 2022, and more than \$712 million statewide. The 2023 Education Bill made progress in addressing the cross-subsidy by increasing cross-subsidy reduction aid to 44 percent.

ENGLISH LEARNERS

More than 60 percent of Minnesota’s English learner students attend school in an AMSD member school district. In FY 2021-22 AMSD districts spent nearly \$145 million on services for English learners, but received just \$34.6 million in English learner funding. The 2023 Education Bill made significant progress toward addressing the shortfall in English learning funding.

The Association of Metropolitan School Districts has been a strong voice for public education and metro area schools for 50 years. AMSD’s mission is to advocate for member districts so they can lead the transformation of public education.

AMSD represents 47 K-12 school districts, and six intermediate / cooperative districts, enrolling more than half the state’s preK-12 public school students.

The organization is highly regarded for its nonpartisan research, communication efforts, timely legislative updates, and extensive legislative summaries.

AMSD board members and staff stand ready to assist state policymakers by providing current research and data to help them make informed policy decisions.

HOMELESS STUDENTS

More than 9,100 students in Minnesota are homeless, and more than 50 percent of these students attend a school in an AMSD member district.

LOW INCOME STUDENTS

Nearly 378,000 students are from low-income families as measured by eligibility for the federal free or reduced-price lunch program. More than half of these students reside in AMSD districts.

PERSONNEL COSTS HIGHER IN AMSD DISTRICTS

Labor costs, whether in the private or public sector, are significantly higher in the metropolitan area. The average hourly wage in the metro area runs up to 30 percent higher than in other regions of the state. As the chart below shows, the same is true for teacher salaries and other staff employed by school districts. Minnesota’s education funding formula does not recognize this cost differential, making metro school districts heavily reliant on voter-approved operating referenda to cover higher personnel costs.
